Only \$495 Per Person!**

Who Should Attend:

- Attorneys
 - Legal Staff
 - Appraisers
 - Landowners
 - Developers
 - Regulators
 - Engineers
 - Government Officials
 - Consultants
 - Planners
 - Builders
 - Real Estate Professionals
 - Environmental Representatives
- ...and anyone involved with water in Tennessee!

Dear Colleagues:

In Tennessee, as in much of this country, water resources affect many aspects of our daily lives, from the water we drink, to our recreational waters, to the vital role it plays in many industrial processes and its support for our fish and wildlife. Federal and state regulatory programs have been established to protect this valuable natural resource. As the issues associated with our use and preservation of our water become more complex, so does our regulation of the same. In-depth knowledge of these regulations, experience, and more importantly everyday creativity are needed to address today's complex regulatory environment, especially given the many existing, new and often competing demands on our state's waters.

**W. Michael Dennis, PhD
Program Co-Chair**

**James M. Weaver, Esq.
Program Co-Chair**

We have assembled an outstanding group of scientists and lawyers experienced in water resources evaluations, planning, and permitting. Topics presented include wetlands, in-lieu fee stream mitigation, water supply planning and permitting, National Pollutant Discharge Elimination System (NPDES), and total maximum daily loads (TMDL). Any person involved with any aspect of these resources will benefit from the speakers' experiences and insights.

We look forward to seeing you there.

Sincerely,

**W. Michael Dennis, PhD

Program Co-Chairs

W. Michael Dennis is president and senior scientist with his company, where he has advised clients on matters dealing with wetlands, threatened and endangered species, vegetation analysis, wildlife, water quality, and regulatory matters. Previously, he worked with the Tennessee Valley Authority (TVA) for five years as a Senior Aquatic and Wetland Botanist.

James M. Weaver has led his firm's environmental practice, the state's largest, for many years. He has extensive experience in the area of governmental, regulatory, and environmental law, specifically in the areas of federal and state regulated impacted site cleanups, water pollution issues, wetlands and stream impact regulation, project development, defense of enforcement actions, and NEPA.

Featured Presenter

James I. Palmer, Jr., became Regional Administrator of Region 4 of the U.S. Environmental Protection Agency in 2002. Region 4 covers Mississippi, Tennessee, Kentucky, Alabama, Georgia, North Carolina, South Carolina and Florida. He served for over 25 years in several capacities in the environmental field with the State of Mississippi, including the Attorney General's Office.

Dorene Bolze is a Conservation Policy Specialist with over 20 years' experience on issues related to managing development and conserving natural resources and wildlife. As Executive Director, she is responsible for overall leadership and management of the organization.

Paul E. Davis is Director of a regulatory agency with a staff of approximately 175 engineers, scientists and support personnel in nine offices across Tennessee involved in management and regulatory activities for protection of surface water quality.

Harold M. Draper is NEPA advisor to three TVA line organizations involved in managing facilities, lakes and reservoirs, and environmental and energy research. He is in charge of a team that manages NEPA projects.

Jeffrey T. Duke is a project manager/ecologist with over 15 years' experience managing and performing ecological and water quality assessments. He has tremendous experience in the regulatory permitting and compliance arena.

Bridgette Ellis directs the Resource Stewardship (RS) organization, which is responsible for managing TVA's land and water resources. RS balances the competing demands of many different views.

J. Andrew Goddard is head of his firm's Environmental Practice Group and has been listed in *The Best Lawyers in America*® since 1991. He has served on external steering committees of the Tennessee Department of Environment and Conservation.

David Jackson is a consulting geologist with over 23 years of experience. His field of practice includes hydrogeology, hydrology, site permitting, site restoration, and resource exploration and development.

William L. James has 30 years' experience with the Corps in the Operations Division of the Nashville District. He is presently responsible for eastern Tennessee and southeastern Kentucky.

Michael S. Mizell concentrates his practice in the areas of environmental, land use and utilities law. He is experienced in the planning and siting of interstate pipelines, including obtaining environmental clearances, permitting and right-of-way acquisition.

CLE International Program Attorney:
Laura Terlisner Mehew, laura@cle.com.

William L. Penny practices in the area of environmental law and chairs his firm's Environmental Law Practice Group. He served as general counsel for the Tennessee Department of Health and Environment.

Douglas Rillstone serves as chairman of his firm's Land Use and Environmental Practice Group and represents clients in all aspects of environmental law, but specializes in natural resource regulation at the federal and state level.

Joseph P. Rozza has over 10 years of water resources and environmental engineering experience. He oversees his firm's completion of water resources projects and also serves as a senior technical advisor on many water resources projects.

Karen Stachowski was previously with the Office of General Counsel for the Tennessee Department of Environment and Conservation, where she worked in the areas of water pollution control, drinking water, and ground water protection among other areas.

Jim Vines was appointed by President George W. Bush and confirmed by the U.S. Senate as U.S. Attorney for the Middle District of Tennessee in February 2002.

Joey Woodard has extensive experience in both federal and state water quality permitting. As a permit coordinator for TDEC's Division of Water Pollution Control, he evaluated complex applications for physical alteration to streams and wetlands.

Richard C. Young has over 30 years' experience in the field of environmental sciences and regulatory compliance. Since the mid-1980's, he has concentrated most of his work in the areas of ecological risk and natural resource damages assessments, among other areas.
