<p>Program Chair</p> <p>Kristin K. Bennett has successfully represented clients on land use, local government and environmental permitting matters before local, state and federal agencies, including wetland and water supply permitting and comprehensive plan issues. She also has participated extensively in the rule development process for the SFWMD water use rules. Prior to joining her firm, she participated in the legal and technical review of water supply projects proposed for Hillsborough County. She also is an active member of the America Water Resources Association, Florida Section.</p>	<p>Martin Kelly has been with his organization since 1987. Currently he manages the section responsible for the development of ecologically defensible minimum flows and levels for lakes, wetlands, streams and estuaries within his District. Previously, he was the Senior Environmental Scientist in the District's Surface Water Improvement and Management (SWIM) Section, where he developed and implemented SWIM Plans for some of the District's most pristine and most impacted water bodies.</p>	<p>Irene Kennedy Quincey practices in the areas of environmental, governmental, and agricultural law with an emphasis on water law, surface water management, wetlands protection and state and federal permitting. She publishes and lectures regularly on multiple water resource issues in Florida, including being a managing editor and author of the <i>Treatise of Florida Environmental & Land Use Law</i>. Before joining her firm, she was the Deputy General Counsel with the South Florida Water Management District.</p>
<p>Carolyn Ansay is a partner with her firm. She represents governmental entities, including local governments and state agencies, and private clients with complex water law, land use law, environmental and governmental matters.</p> <p>Don Conn has been in his position since 1994. Prior to that, he was General Counsel for the Florida Department of Business Regulation, an Administrative Law Judge with the Division of Administrative Hearings, State Courts Administrator with the Florida Supreme Court, and Assistant Attorney General.</p> <p>Richard Hamann is an attorney, researcher and law professor. He has conducted research on a wide variety of environmental, land use and water management issues. He teaches Florida Water Law and other environmental courses.</p>	<p>Carlyn H. Kowalski has 20 years' experience in water law and policy and utility issues. Prior to her current position, she was general counsel with Florida Water Services, and counsel for the Southwest Florida Water Management District, where she led the development of the first revisions to the consumptive use permitting rules.</p> <p>Karen A. Lloyd is responsible for rulemaking and technical/regulatory services support for her district's water use program, including minimum flows and levels activities.</p> <p>Douglas P. Manson focuses on litigation and counseling in water related environmental law. He has litigated major administrative law trials on agricultural and public supply water use permits and is an appointed member of the Hillsborough County Agricultural Economic Development Council.</p> <p>Richard Owen has been with his organization since 1982. In his current capacity, he is responsible for a wide variety of planning activities, including preparation, updating, and annually reporting on the implementation of the District Water Management Plan, preparing Comprehensive Watershed Management plans, facilitating priority setting for the District Governing and Basin Boards and assisting in updating the District's Regional Water Supply Plan.</p>	<p>Roger D. Schwenke has focused on environmental, land use and real estate law for over 33 years. He currently serves as the ABA's Advisor to the Uniform Law Commission's Uniform Environmental Covenants Act, and as a liaison from the ABA Real Property Section to the ABA Standing Committee on Environmental Law. He is listed in <i>Who's Who in America</i> and in <i>Best Lawyers in America</i>.</p> <p>Harold (Hal) Wilkening, III, has over 23 years' experience in water resources engineering, management, regulation. He implements the District's mission of water supply planning, water supply and water resource development, water use permitting, and minimum flows and levels. He is an active member of the American Society of Civil Engineers, American Water Works Association, and American Water Resources Association.</p> <p>CLE INTERNATIONAL Program Coordinator: Julie Nolan, julie@cle.com</p>
